

# HENRY COUNTY

**Henry County**  
Named For: Patrick Henry, Patriot, Statesman and Orator  
Established: Act – April 1, 1820  
Land Area: 416.5 Square Miles  
County Seat: Napoleon  
Population: 29,210 (2000 Census)

**Rural House Numbering**  
The numbering system starts at the southeast corner of the county at Roads 1 and A, and begins with number A-001 and increases to A-999 for the first mile going North. The second mile would begin with B-001 and increase to B-999, and so forth, ending with V-999 at the North County Line. Likewise, numbers running East and West would start with 1-001 and increase to 1-999 for the first mile going West, ending with 24-999 at the West county line with Williams County.

Roads beginning with a number (example 1, 12, 12a) and S.R.'s 65, 66, 108, and 109 are primarily considered North-South roads. Roads beginning with a letter (example A, S, P3) and US 6 and 24, S.R.'s 424, 18, 34 110, and 281 are considered East-West roads.

Even numbers are on the North and East and odd numbers on the South and West sides of the roads.

Example: N-258 Road 12, Letter (N) designates location, between Roads N and O. Next two numbers (25) means 25 hundredths or ¼ mile from Road N, and last number (8) an even number, designates the East side of the road.
